

Music Spine

Shakespeare Music Spine

At Shakespeare we believe that music ignites all areas of child development including intellectual, social-emotional, motor, language, and overall literacy. It helps the body and the mind work together. Exposing children to music during early development helps them learn the sounds and meanings of words. Later on, it can help develop personal developmental skills including personal choice, opinions and a deeper understanding of vocabulary and language.

We believe that all children deserve the opportunity to be immersed in different musical genres.

	<u>Autumn</u>	<u>Spring</u>	<u>Summer</u>
